

CSO COP2020 Overview

JANUARY 27, 2020

Overview: COP 2020

**Context: ongoing national
Community-Led Monitoring and
fact finding**

**Focus on the demands of the
people who are supposed to
benefit from services**

**Findings will be developed and
refined into the "People's Voice
2020"**

Four regions (Northern/West Nile; Central;
Eastern; Midwest and Southwestern)

Facility and community-based data collection

Thematic focus group discussions

Cross cutting priorities

- Quality of treatment services
- Key populations
- Pediatric treatment
- AGYW

Overview: COP 2020

- Loss to follow up/treatment program quality
 - Community based services
 - Retention, loss to follow up
 - Stock outs
 - Persistent retention crisis
- Key populations
 - Need for overarching strategic direction
 - Access to quality condoms and lubricant

Best practices

Knowledge Room – finding men in Kabarole

Community engagement model in Rwenzori region – sub granting CBO's

75% services are community based and 25% facility based (children, adolescents youth and children)

U=U – Jinja discordant couple

Thanks
